## Augmentations

A list of some of the physical augmentations & psychological techniques that allow a human being to perform beyond their natural capabilities.

**Stem cells treatments** used to increase brain mass and neural connectivity thereby enhancing cognitive ability

**CRISPR gene editing** allowing the rapid selection of 'good' genes. A process which once took generations to achieve.

**Biological implants** capable of dispensing stimulants, opioids & steroids into the blood stream

**Blood transfusions** from young healthy donors that have a rejuvenating effect & slow the ageing process

**The inducing of gigantism** to create humans of extraordinary height and size

**Empathy impairments** which create ruthless, psychopathic individuals willing to cross lines and do what others would not

**Messiah program:** Instilling an extreme sense of confidence in someone by making them believe they are 'the chosen one'

**Neural interface technology** capable of bidirectional communication facilitating the reading of somebody's thoughts as well as control over their physical body & consciousness

## Test subjects

A very small selection from countless thousands of people who have been covertly altered and manipulated without consent. Not only will you find presidents, much loved celebrities & captains of industry, but also criminals, terrorists & mass murderers. All are victims in their own way.
